## KINDRED HEALTHCARE REPORTS SECOND QUARTER 2017 RESULTS

*Results Adjusted to Reflect Discontinued Operations Accounting Treatment for Skilled Nursing Facility Business*

**Consolidated Revenues of \$1.53 Billion, GAAP Loss from Continuing Operations of \$108 Million<sup>(1)</sup>, GAAP Diluted Loss Per Share from Continuing Operations of \$1.36<sup>(1)</sup> and EBITDAR of \$36 Million<sup>(2)</sup> in the Second Quarter**

**Results Reflect After-Tax Costs of \$136 Million Primarily Related to Non-Cash Impairments of \$82 Million and a Non-Cash Deferred Tax Asset Valuation Allowance of \$37 Million**

**Core EBITDAR of \$198 Million<sup>(3)</sup> and Core Diluted EPS from Continuing Operations of \$0.19<sup>(3)</sup> in the Second Quarter**

**Second Quarter GAAP Operating Cash Flows and Core Operating Cash Flows of \$93 Million<sup>(3)</sup> and Core Free Cash Flows of \$62 Million<sup>(3)</sup>**

**Company Updates Outlook for 2017 and 2018**

**LOUISVILLE, Ky. (August 3, 2017)** – Kindred Healthcare, Inc. (“Kindred” or the “Company”) (NYSE:KND) today announced its operating results for the second quarter ended June 30, 2017.

Benjamin A. Breier, President and Chief Executive Officer of the Company, commented, “We are pleased to report strong second quarter operating results in line with expectations. We made solid progress growing our Kindred at Home and Kindred Rehabilitation Services divisions. Strong top line growth and another sequential decline in labor costs drove increased profitability in both businesses. The growth in these businesses, solid cash flow performance and our enterprise-wide cost realignment initiatives position Kindred for future success.”

Mr. Breier continued, “The second quarter was a historical one for Kindred, marked by the execution of the definitive agreement to sell our skilled nursing facility business. After more than two decades of nursing center operations, this announcement clears the way to closing that chapter of Kindred’s story, and turns the page to the future of integrated post-acute care. We expect these sales to be completed by the end of 2017, and believe they will significantly enhance shareholder value and increase our focus on higher margin, faster growing and less capital intensive businesses, all of which will increase the fundamental cash generating capacity of our enterprise.”

Mr. Breier added, “Our Hospital Division continued to advance its mitigation strategy, navigating through its third full quarter of long-term acute care (“LTAC”) patient criteria. Operating results were largely in line with our previously stated expectations. LTAC compliant revenue increased to 88% from 86% in the first quarter. Managed care and commercial volumes increased 8.2% for the second quarter of 2017 on a same-hospital basis as compared to the prior year period.”

Mr. Breier noted, “Kindred’s Hospital Division continues to advance its portfolio optimization initiative with the pending closure of five additional non-strategic LTAC hospitals. As announced earlier this week, Kindred is converting one of those LTAC hospitals in Indianapolis, Indiana into an inpatient rehabilitation facility (“IRF”) joint venture with Community Health Network. We expect to further optimize our LTAC portfolio with additional closures, consolidations and IRF conversions over the coming quarters.”

- 
- (1) Results reflect after-tax costs of \$136.4 million or \$1.56 per diluted share related to impairment charges, deferred tax asset valuation allowance, RehabCare collection litigation, restructuring charges and business interruption settlements.
- (2) Results reflect pretax costs of \$162.5 million related to impairment charges, RehabCare collection litigation, restructuring charges and business interruption settlements. As used herein, “EBITDAR” means earnings before interest, income taxes, depreciation, amortization and total rent. See reconciliation of generally accepted accounting principles (“GAAP”) results to non-GAAP results beginning on page 14.
- (3) See reconciliation of GAAP results to non-GAAP results beginning on page 14. During the first quarter of 2017, the Company revised its definition of “core” non-GAAP measures. See “Non-GAAP Measures” beginning on page 14 for a discussion regarding the revised definitions. For comparability, core results for 2016 have been revised to conform to the current year presentation.

– MORE –

Mr. Breier concluded, “We are very proud of the progress our teammates made over the first half of the year. Advancing our exit from the skilled nursing facility business in its entirety, working through our LTAC patient criteria mitigation strategy, and growing our Kindred at Home and Kindred Rehabilitation Services divisions set the stage for additional progress in the coming quarters. As detailed in the 2017 and 2018 Outlook section below, we expect these efforts to result in financial performance next year of approximately \$6.2 billion of revenue, \$830 million of Core EBITDAR, \$0.80 of Core diluted earnings per share (“EPS”) from continuing operations, and a midpoint expectation of \$180 million of Core free cash flows and cash benefits from utilization of net operating losses (“NOLs”)(1). I would like to extend my deep appreciation and sincere thanks to the thousands of caregivers and teammates whose contribution is critical to improving the lives of the more than one million patients we care for each year.”

All financial and statistical information included in this earnings release reflects the continuing operations of the Company’s businesses for all periods presented unless otherwise indicated. As a result of developments in the second quarter of 2017 related to the planned divestiture of the Company’s skilled nursing facility business, the operating results, direct overhead and losses associated with this business were classified, for accounting purposes, as discontinued operations for all periods presented. These changes include the transfer of profits from applicable RehabCare contracts servicing the Company’s skilled nursing facility business to discontinued operations, but do not include any allocations of indirect overhead related to the skilled nursing facility business. In addition, the Company has reclassified certain retained businesses and expenses previously reported in the Nursing Center Division to other business segments in continuing operations for all periods presented.

***Second Quarter Consolidated Results(2):***

- Consolidated revenues were \$1.53 billion, a 4.6% year-over-year decrease, primarily attributable to the impact of the transition to LTAC patient criteria and the sale or closure of 16 LTAC hospitals primarily during the second half of 2016. GAAP loss from continuing operations was \$108.2 million compared to income of \$28.0 million in the same period a year ago, primarily due to a \$129.7 million pretax increase in impairment charges, a deferred tax asset valuation allowance of \$36.7 million, a \$25.3 million pretax charge for certain RehabCare contract terminations for non-payment and related collection litigation (“RehabCare Collection Litigation”) and the impact of LTAC patient criteria. Core EBITDAR declined to \$198.0 million compared to \$228.2 million in the same period of 2016, primarily due to LTAC patient criteria and the sale or closure of the 16 LTAC hospitals noted above.
- GAAP operating cash flows were \$92.7 million compared to \$135.2 million for the same period a year ago. Core operating cash flows were \$92.3 million compared to \$126.3 million for the same period a year ago. Core free cash flows were \$62.4 million compared to \$83.3 million in the same period a year ago. GAAP operating cash flows, Core operating cash flows and Core free cash flows declined compared to the prior year period primarily due to LTAC patient criteria and an increase in net working capital in the second quarter of 2017 compared to the prior year period.
- GAAP diluted loss per share from continuing operations was \$1.36 as compared to GAAP diluted EPS from continuing operations of \$0.21 a year ago. This decrease was primarily due to an increase in impairment charges, a deferred tax asset valuation allowance of \$36.7 million, a provision for the RehabCare Collection Litigation and LTAC patient criteria. Core diluted EPS from continuing operations was \$0.19 as compared to \$0.33 for the same period last year. The decline in Core diluted EPS was primarily attributable to LTAC patient criteria.
- The Company recorded a pretax \$134.6 million non-cash impairment charge in the second quarter to reflect the write-off of the full carrying value of RehabCare trade name and customer contract intangible assets based upon various factors, including the estimated reduction in earnings resulting from the previously announced definitive agreement to dispose of the Company’s skilled nursing facility business and the impact of the RehabCare Collection Litigation.

***Second Quarter Segment Results(2)(3):***

Our Kindred at Home Division, which comprises the Company's home health, hospice, community care and home-based primary care businesses, recorded second quarter revenues that increased 3.2% over the prior year period to \$644.5 million. On a

- 
- (1) See "2017 and 2018 Outlook" below for further details. All forward-looking non-GAAP financial measures are provided only on a non-GAAP basis due to the inherent difficulty of forecasting the timing or amount of items that would be included in the most directly comparable forward-looking GAAP financial measures. As a result, reconciliation of the forward-looking non-GAAP measures to GAAP financial measures is not available without unreasonable effort and the Company is unable to assess the probable significance of the unavailable information.
  - (2) See reconciliation of GAAP results to non-GAAP results beginning on page 14. During the first quarter of 2017, the Company revised its definition of "core" non-GAAP measures. See "Non-GAAP Measures" beginning on page 14 for a discussion regarding the revised definitions. For comparability, core results for 2016 have been revised to conform to the current year presentation.
  - (3) See full segment data on pages 9 through 13.

- MORE -

***Second Quarter Segment Results<sup>(1)(2)(3)(Continued):</sup>***

same-store basis, home health admissions increased 2.8% and episodic admissions were flat while same-store hospice admissions declined 3.0% over the prior year period. Segment adjusted operating income and Core EBITDAR increased 1.9% and 1.3%, respectively, for the second quarter of 2017 as compared to the prior year period. Home health direct labor costs per visit declined 3.0% and hospice direct labor costs per patient day declined 1.8% in the second quarter of 2017 both as compared to the first quarter of 2017.

Kindred's Hospital Division second quarter revenues declined to \$540.8 million from \$645.4 million in the prior year period primarily due to the elimination of approximately \$70 million of revenue related to the sale or closure of the 16 LTAC hospitals primarily during the second half of 2016, the impact of LTAC patient criteria and a 2.0% decline in same-hospital admissions compared to last year. For the second quarter of 2017, approximately 88% (92% excluding Texas LTAC hospitals) of same-hospital revenue came from LTAC compliant patients, which include all patients except Medicare site neutral patients, an increase from approximately 86% (89% excluding Texas LTAC hospitals) in the first quarter of 2017. Same-hospital managed care and commercial volumes increased 8.2% in the second quarter of 2017 compared to the prior year period. Segment adjusted operating income and Core EBITDAR for the second quarter declined to \$91.6 million and \$90.6 million, respectively, compared to \$127.5 million for both Segment adjusted operating income and Core EBITDAR a year ago. The declines were primarily due to the elimination of approximately \$8 million of Segment adjusted operating income and Core EBITDAR related to the sale or closure of the 16 LTAC hospitals noted above, the impact of LTAC patient criteria, and increases in labor and other costs.

Kindred Rehabilitation Services increased second quarter revenues by 2.2% to \$369.3 million as compared to \$361.3 million in the prior year period. Segment adjusted operating income decreased to \$36.1 million as compared to \$58.1 million in the prior year period, primarily as a result of the RehabCare Collection Litigation. Core EBITDAR increased to \$61.4 million as compared to \$58.1 million in the prior year period. The Kindred Hospital Rehabilitation Services segment achieved revenue growth of 4.3% to \$178.4 million, and Segment adjusted operating income and Core EBITDAR both grew to \$53.4 million, an increase of 5.3% compared to the same period a year ago, as a result of the development of new IRFs and a 6.7% increase in revenue per discharge while same-IRF discharges were flat compared to prior year. RehabCare revenues increased 0.4% to \$190.9 million for the second quarter. RehabCare Segment adjusted operating income (loss) decreased to a loss of \$17.3 million compared to income of \$7.4 million in the prior year period, primarily due to the RehabCare Collection Litigation. RehabCare Core EBITDAR increased 8.7% to \$8.0 million primarily due to cost reduction initiatives and efforts to terminate unprofitable contracts, partially offset by census decline and wage rate pressure.

***Discontinued Operations – Loss on Divestiture of Skilled Nursing Facility Business***

During the second quarter of 2017, the Company recorded \$288.8 million of pretax charges related to the planned divestiture of its skilled nursing facility business, including a \$262.3 million lease termination accrual, \$18.0 million of transaction costs and \$8.5 million of retention costs.

***2017 and 2018 Outlook<sup>(4)</sup>***

All forward-looking non-GAAP financial measures used to provide "2017 Outlook" and "2018 Outlook" (collectively, "Outlook") are provided only on a non-GAAP basis. This is due to the inherent difficulty of forecasting the timing or amount of items that would be included in the most directly comparable forward-looking GAAP financial measures. As a result, reconciliation of the forward-looking non-GAAP financial measures to GAAP financial measures is not available without unreasonable effort and the Company is unable to assess the probable significance of the unavailable information.

The Company's Outlook does not take into account the effect of any reimbursement changes, any further acquisitions or divestitures, and any further issuances or repurchases of common stock.

- 
- (1) See reconciliation of GAAP results to non-GAAP results beginning on page 14. During the first quarter of 2017, the Company revised its definition of "core" non-GAAP measures. See "Non-GAAP Measures" beginning on page 14 for a discussion regarding the revised definitions. For comparability, core results for 2016 have been revised to conform to the current year presentation.
  - (2) See same-hospital and full segment data on pages 9 through 13.
  - (3) For each of the Company's segments, Segment adjusted operating income (loss) is a measure of performance used by the Company's chief operating decision makers in accordance with "Accounting Standard Codification 280 – Segment Reporting." The Company defines Segment adjusted operating income (loss) as EBITDAR, excluding litigation contingency expense, impairment charges, restructuring charges, transaction costs, and the allocation of support center overhead.
  - (4) See Forward-Looking Statements beginning on page 14.

- MORE -

**2017 and 2018 Outlook<sup>(1)</sup>(Continued):**

Stephen D. Farber, Executive Vice President and Chief Financial Officer of Kindred, commented, “As a reminder, when the Company established its 2017 Outlook, it included a midpoint expectation for 2017 Core EBITDAR of \$930 million, with a range of \$910 million to \$950 million. As discussed above, the Company is now reflecting its skilled nursing facility business in discontinued operations. For consistency, this change would require that the Company’s previous 2017 Core EBITDAR Outlook be adjusted by approximately \$140 million<sup>(2)</sup>.”

Mr. Farber noted, “There are additional factors that should be considered with updating expectations for our 2017 performance. For example, we expect roughly \$30 million of benefit, on a full-year basis, from various cost reduction efforts and anticipated new RehabCare contracts signed in connection with the sale of the skilled nursing facility business. We expect the full amount of these items to benefit 2018, but the impact on 2017 is completely dependent on the timing of multiple transaction closings, which are uncertain but expected to occur in phases over the remainder of 2017. Also as discussed above, we are closing five additional LTAC hospitals, including the conversion of an LTAC hospital to an IRF, each of which has uncertain timing, lease termination, wind-down and other costs. These and other items will have both positive and negative impacts on Kindred’s reported results for the balance of 2017.”

Mr. Farber continued, “For the second half of 2017, we expect our third quarter to follow normal seasonal trends, making it the softest quarter of the year. Due to ongoing and widely reported inpatient volume trends, as well as continued labor pressure in our Hospital Division, the Company is expecting to finish the year towards the lower end of its previous outlook range.”

Mr. Farber concluded, “Given the complexity and uncertain timing of these items over the next several months, it is not practical to update our 2017 Outlook and we are limiting our commentary for the balance of 2017 to the items discussed above. As such, we are focusing on updating and expanding our outlook for 2018. The items identified above should be largely complete and incorporated on a run-rate basis in Kindred’s results by the end of 2017, and estimates for these items are reflected in the Company’s 2018 Outlook below.”

For the 2018 Outlook, Kindred anticipates:

- Annual revenues at the midpoint of approximately \$6.2 billion;
- Core EBITDAR at the midpoint of approximately \$830 million; and
- Core diluted EPS from continuing operations at the midpoint of approximately \$0.80.

In determining these items, Kindred utilized the following 2018 estimates:

- Total rent expense of approximately \$300 million;
- Depreciation and amortization expense of approximately \$100 million;
- Interest expense of approximately \$245 million, including \$17 million of amortization of deferred financing fees;
- Noncontrolling interest expense of approximately \$45 million to \$50 million;
- An effective book tax rate of approximately 34%;
- Weighted average shares outstanding of approximately 90.0 million; and
- Routine capital expenditures of approximately \$60 million.

Please note:

- Annual revenues have been adjusted from approximately \$6.3 billion in the previous 2018 Outlook to \$6.2 billion in the current 2018 Outlook primarily to reflect the impact of recent and anticipated LTAC hospital closures and consolidations;
- Core EBITDAR has been adjusted from \$840 million in the previous 2018 Outlook to \$830 million in the current 2018 Outlook to reflect recent and anticipated LTAC hospital closures and consolidations. Since these hospitals have similar levels of Core EBITDAR and lease expense, the simultaneous elimination of Core EBITDAR and lease expense are expected to have an immaterial impact on Core earnings before income taxes, depreciation and amortization, and Core diluted EPS from continuing operations; and

---

(1) See Forward-Looking Statements beginning on page 14.

(2) Reflects the impact of Core EBITDAR of the skilled nursing facility business reclassified to discontinued operations, its direct overhead, as well as the profits from applicable RehabCare contracts servicing the skilled nursing facilities being sold.

**2017 and 2018 Outlook<sup>(1)</sup>(Continued):**

- Core EBITDAR includes an estimated \$30 million contribution, as noted above, from forecasted cost savings and new RehabCare contract signings anticipated in connection with the sale of the Company's skilled nursing facility business.

**Cash Flow<sup>(1)</sup>**

Mr. Farber commented, "Cash flow is a primary focus for Kindred. We are very pleased with our strong second quarter cash flow performance that was in line with our expectations, and enabled us to reduce funded debt by \$48 million during the quarter. We finished the quarter with excellent liquidity, with \$157 million drawn on our \$900 million revolving credit facility. After the sale of the skilled nursing facility business, we anticipate Kindred will have approximately \$800 million of NOLs. As we have previously discussed, these NOLs should offset approximately 90% of book tax estimates for many years, and significantly augment cash generation. Combining Core free cash flows plus tax-related cash flows from utilizing Kindred's NOLs, we expect cash results for 2018 on this basis at a midpoint expectation of \$180 million."

**Conference Call**

As previously announced, investors and the general public may access a live webcast of the second quarter 2017 conference call through a link on the Company's website at <http://investors.kindredhealthcare.com>. The conference call will be held on August 4 at 9:00 a.m. (Eastern Time).

A telephone replay of the conference call will become available at approximately 12:00 p.m. on August 4 by dialing (719) 457-0820, access code: 4930738. The phone replay will be available through August 14 and the online replay will be available through September 4.

**Forward-Looking Statements and Non-GAAP Reconciliations**

See page 14 for important disclosures regarding the Company's forward-looking statements and the non-GAAP financial reconciliations that follow.

**About Kindred Healthcare**

Kindred Healthcare, Inc., a top-100 private employer in the United States, is a FORTUNE 500 healthcare services company based in Louisville, Kentucky with annual revenues of approximately \$6.1 billion<sup>(2)</sup>. At June 30, 2017, Kindred's continuing operations, through its subsidiaries, had approximately 88,100 employees providing healthcare services in 2,540 locations in 45 states, including 81 LTAC hospitals, 19 inpatient rehabilitation hospitals, 19 sub-acute units, 614 Kindred at Home home health, hospice and non-medical home care sites of service, 102 inpatient rehabilitation units (hospital-based) and contract rehabilitation service businesses which served 1,705 non-affiliated sites of service. Ranked as one of Fortune magazine's Most Admired Healthcare Companies for eight years, Kindred's mission is to promote healing, provide hope, preserve dignity and produce value for each patient, resident, family member, customer, employee and shareholder we serve. For more information, go to [www.kindredhealthcare.com](http://www.kindredhealthcare.com). You can also follow us on [Twitter](#) and [Facebook](#).

### ***Forward-Looking Statements***

This earnings release includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements include, but are not limited to, all statements regarding the Company's ability to exit the skilled nursing facility business and the expected timing of such exit, including the receipt of all required regulatory approvals and the satisfaction of the closing conditions for the transaction, as well as the Company's ability to realize the anticipated benefits, sale proceeds, cost savings and strategic gains from this transaction, all statements regarding the Company's expected future financial position, results of operations, cash flows, dividends, financing plans, business strategy, budgets, capital expenditures, competitive positions, growth opportunities, plans and objectives of management, government investigations, regulatory matters, and statements containing words such as "anticipate," "approximate," "believe," "plan," "estimate," "expect," "project," "could," "would," "should," "will," "intend," "hope," "may," "potential," "upside," and other similar expressions. Statements in this earnings release concerning the Company's business outlook or future economic performance, anticipated profitability, revenues, expenses, dividends or other financial items, and product or services line growth, and expected outcome of government investigations and other regulatory matters, together with other statements that are not historical facts, are forward-looking statements that are estimates reflecting the best judgment of the Company based upon currently available information.

Such forward-looking statements are inherently uncertain, and stockholders and other potential investors must recognize that actual results may differ materially from the Company's expectations as a result of a variety of factors. Such forward-looking statements are based upon management's current expectations and include known and unknown risks, uncertainties and other factors, many of which the Company is unable to predict or control, that may cause the Company's actual results, performance, or plans to differ materially from any future results, performance or plans expressed or implied by such forward-looking statements. These statements involve risks, uncertainties, and other factors detailed from time to time in the Company's Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K filed with the Securities and Exchange Commission (the "SEC").

Many of these factors are beyond the Company's control. The Company cautions investors that any forward-looking statements made by the Company are not guarantees of future performance. The Company disclaims any obligation to update any such factors or to announce publicly the results of any revisions to any of the forward-looking statements to reflect future events or developments.

### ***Non-GAAP Measures***

In addition to the results provided in accordance with GAAP, the Company has provided information in this earnings release using certain non-GAAP measures. The use of these non-GAAP measures is not intended to replace the presentation of the Company's financial results in accordance with GAAP. Reconciliations of these non-GAAP measures to the most directly comparable GAAP measures are included in the following pages of this earnings release.

During the first quarter of 2017, the Company revised its definitions of "core" non-GAAP measures. As revised, the Company's core non-GAAP measures, including core net income attributable to Kindred, core EBITDAR, core diluted EPS, core operating cash flows and core free cash flows, no longer exclude (1) transaction, integration, research and development, and litigation contingency expenses that are not individually material, (2) non-restructuring related facility closing charges, and (3) non-executive or non-restructuring related severance, retirement and retention costs. For comparability, "core" results for 2016 have been revised to conform to the current year presentation.

*EBITDAR*: The Company defines EBITDAR as earnings before interest, income taxes, depreciation, amortization and total rent, and believes that the presentation of EBITDAR is useful to investors because creditors, securities analysts and investors use EBITDAR to compare the performance of companies in the healthcare industry before consideration of the capital structure of fixed assets and financing costs, which can vary significantly among companies.

For each of the Company's segments, Segment adjusted operating income (loss) is a measure of performance used by the Company's chief operating decision makers in accordance with "Accounting Standard Codification 280—Segment Reporting." In this context, the Company defines Segment adjusted operating income (loss) as EBITDAR, excluding litigation contingency expense, impairment charges, restructuring charges, transaction costs, and the allocation of support center overhead.

***Non-GAAP Measures (Continued)***

***Core Operating Results:*** The Company calculates core operating results, including core net income attributable to Kindred, core EBITDAR and core diluted EPS, by excluding charges related to impairments, business interruption settlements, restructuring charges, debt amendment costs, executive or restructuring-related severance, retirement and retention costs, restructuring-related facility closing charges, and material transaction, integration, litigation, and research and development costs. The Company believes that the presentation of core operating results provides additional information to investors to facilitate the comparison between periods by excluding certain charges that are not representative of its ongoing operations due to the materiality and nature of the charges. The Company's management uses core net income attributable to Kindred, core EBITDAR and core diluted EPS as measures of operational performance that are meaningful to investors, and for the measurement of internal incentive compensation goals, in addition to other measures. The Company uses these measures to assess the relative performance and attainment of internal incentive compensation goals of its operating divisions, as well as the employees that operate these businesses. In addition, the Company believes these measures are important, because securities analysts and investors use these measures to compare the Company's performance to other companies in the healthcare industry.

***Same-Hospital Revenues:*** The same-hospital revenues are calculated by excluding from the Company's Hospital Division revenues the results from one hospital that closed during the second quarter of 2017, four hospitals acquired in 2016, 15 hospitals sold in 2016, and three hospitals that closed during 2016. The Company believes the presentation of same-hospital revenues provides investors, equity analysts and others with useful information regarding the performance of the Company's hospital operations that are comparable for the periods presented.

For EBITDAR, core net income attributable to Kindred, and core EBITDAR, the Company believes that income (loss) from continuing operations is the most comparable GAAP measure. For core diluted EPS, the Company believes that GAAP diluted earnings (loss) per share from continuing operations is the most comparable GAAP measure. Readers of the Company's financial information should consider income (loss) from continuing operations and diluted earnings (loss) per share from continuing operations as important measures of the Company's financial performance, because they provide the most complete measures of its performance. For same-hospital revenues, the Company believes that reported hospital segment revenues is the most comparable GAAP measure. Readers of the Company's financial information should consider reported hospital segment revenues as an important measure of the Company's Hospital Division financial performance because it provides the most complete measure of its performance. Operating results presented on a core basis, as well as a same-hospital basis, should be considered in addition to, not as a substitute for, or superior to, financial measures based upon GAAP as an indicator of operating performance.

Also in this earnings release, the Company provides the financial measures of operating cash flows and free cash flows excluding certain items, which the Company refers to as core operating cash flows and core free cash flows, respectively.

***Core Operating Cash Flows:*** The Company defines core operating cash flows as operating cash flows excluding payments related to business interruption settlements, restructuring charges, debt amendment costs, executive or restructuring-related severance, retirement and retention costs, restructuring-related facility closing charges, and material transaction, integration, litigation, and research and development costs, net of income tax benefits. The Company believes that core operating cash flows provide important information to investors for comparability to other companies that use similar measures. Management uses core operating cash flows to evaluate consolidated operating performance and in making decisions related to acquisitions, development capital expenditures, dividends, long-term debt repayments and other uses.

***Core Free Cash Flows:*** The Company defines core free cash flows as operating cash flows excluding payments related to business interruption settlements, restructuring charges, debt amendment costs, executive or restructuring-related severance, retirement and retention costs, restructuring-related facility closing charges, and material transaction, integration, litigation, and research and development costs, net of income tax benefits but including routine capital expenditures and distributions to noncontrolling interests. The Company believes that core free cash flows provide important information to investors for comparability to other companies that use similar measures. Management uses core free cash flows in making decisions related to acquisitions, development capital expenditures, dividends, long-term debt repayments and other uses.

The Company recognizes that core operating cash flows and core free cash flows are non-GAAP measures and are not intended to replace the presentation of the Company's cash flows in accordance with GAAP. For core operating cash flows and core free cash flows, the Company believes net cash flows provided by operating activities is the most comparable GAAP measure. Readers of the Company's financial information should consider net cash flows provided by operating activities as an important measure because it provides the most complete measure of cash provided by operating activities. Core operating cash flows and core free cash flows should be considered in addition to, not as a substitute for, or superior to, financial measures based upon GAAP as an indicator of the Company's cash flows provided by operating activities.

**KINDRED HEALTHCARE, INC.**  
**Reconciliation of GAAP Results to Non-GAAP Measures**  
**(Unaudited)**

(In thousands, except per share amounts and statistics)

In addition to the results provided in accordance with GAAP, the Company has provided information in this earnings release to compute certain non-GAAP measures for the three months ended June 30, 2017 and 2016, and for the six months ended June 30, 2017 and 2016, before certain charges or on a core basis. The charges that were excluded from core operating results are denoted in the tables below.

The income tax benefit associated with the excluded charges, including the deferred tax valuation allowance for the three months and six months ended June 30, 2017, was calculated using an effective income tax rate of 17.0% and 14.3% for the three months ended June 30, 2017 and 2016, respectively, and 19.2% and 24.1% for the six months ended June 30, 2017 and 2016, respectively. The difference in the effective income tax rate compared to the same prior year period is primarily attributable to the deferred tax valuation allowance and, for 2016, the composition of charges that are non-deductible for income tax purposes, including the impairment charges and litigation contingency expense.

- (a) During the first quarter of 2017, the Company revised its definitions of “core” non-GAAP measures. See “Non-GAAP Measures” beginning on page 14 for a discussion regarding the revised definitions. For comparability, core results for 2016 have been revised to conform to the current year presentation.

**KINDRED HEALTHCARE, INC.**  
**Reconciliation of GAAP Results to Non-GAAP Measures (Continued)**  
**(Unaudited)**

- (a) The Company has estimated that it will not pay federal and state income taxes (where state unitary or consolidated tax returns are allowed) in 2017 due to anticipated loss associated with the sale of the Company's skilled nursing facility business. In 2016, the Company did not pay these taxes as a result of a consolidated taxable loss. These cash savings in both years are recognized in GAAP cash flows and offer additional sources of cash when evaluating the Company's cash flow generating capability before certain payments. After the sale of the skilled nursing facility business, the Company anticipates it will have approximately \$800 million of net operating losses that should offset approximately 90% of core book tax estimates until exhausted.
